

Pulp Fiction “AI Edition” Civil Litigation in the Age of Global Artificial Intelligence

1. Artificial intelligence (AI) is a transformative force in the legal profession.
2. AI can enhance efficiency, reduce costs, and improve quality legal services.
3. AI does present reliability concerns as well as lack of transparency in how conclusions are reached.
4. To fully realize the benefits of AI in litigation, a balanced approach is essential.
5. Approaching AI with informed caution and professional oversight will allow the legal profession to harness the transformative potential of AI.

5 FOR THE ROAD
